

Athens

The Athens is our most popular size and model. This 7' spa includes a lounge with a multiple jet therapy hot seat. The Athens' unique reverse molded neck jets are placed in the lounge along with the therapy hot seat. This provides beautiful relief from both neck and shoulder strain. The Athens also has special, multi-directional dual-nozzle jets in four of the seat positions for a personalized hydrotherapy experience – specifically designed to take you to Athens – without ever leaving home.
